EXPERIENCE

ABOUT US

S3 Electronics is started from 2015 and we are successfully running almost 7 years. We are in the business of Electronics manufacturing & services and provide quality printed circuit boards assembly to original equipment manufacturers and own design manufactures. Our customer includes different mix of industry segments ranging from Consumer electronics, Telecommunication, Automobile, Medical, Aerospace and Proto types. From visual inspection perspective, we take quality control very seriously and test everything rigorously for functionality and quality SMD, THT, Mixed Assembly, Package on Package (POP), Rigid PCBs, and Flex PCBs - if there's a type of printed circuit board that can be assembled, we almost surely do it..

We are Uncompromising in our
Integrity , honesty & Fairness

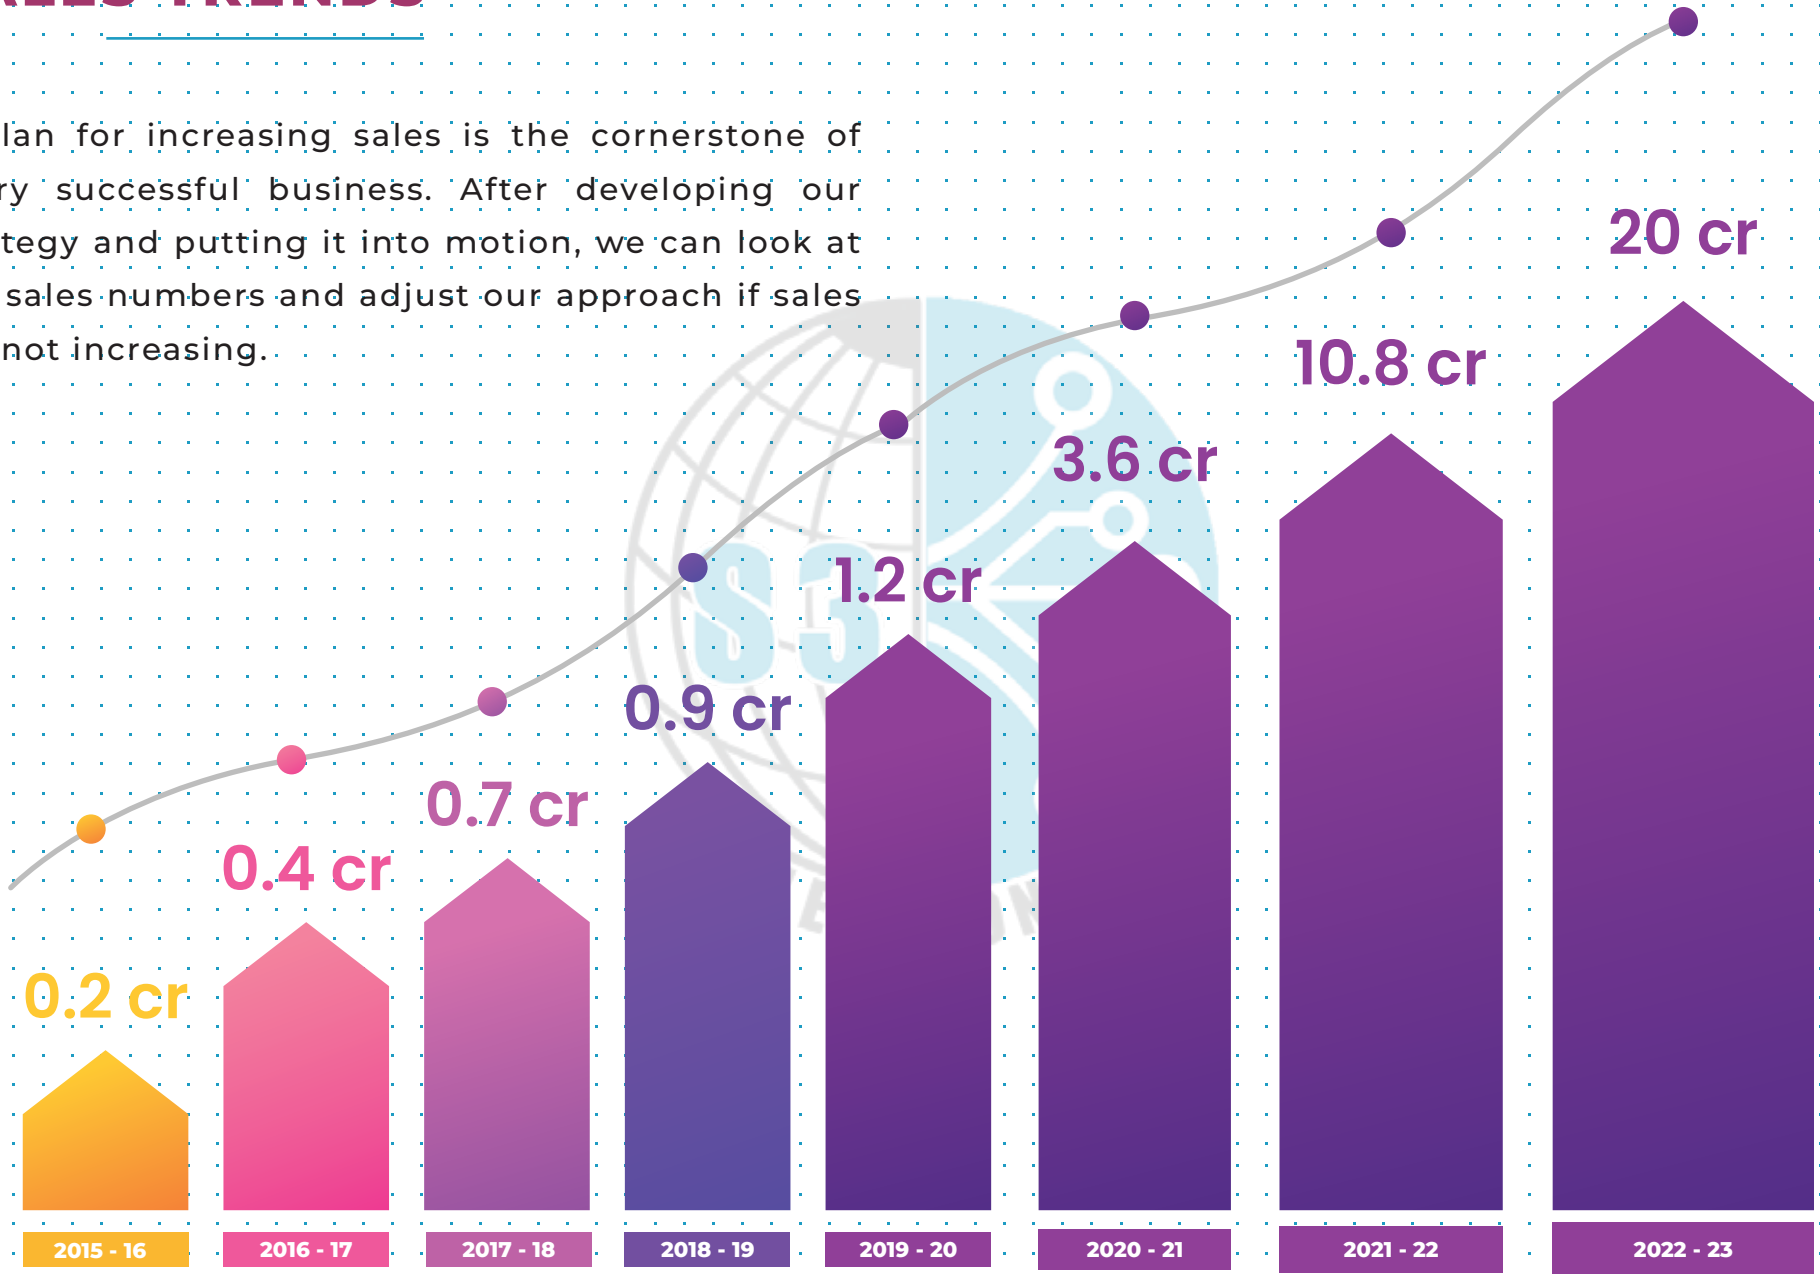

We Motivate one another through important Work
that is full of Meaning and Challenging Environment

SOME OF OUR PREMIUM CLIENTS

SALES TRENDS

A plan for increasing sales is the cornerstone of every successful business. After developing our strategy and putting it into motion, we can look at our sales numbers and adjust our approach if sales are not increasing.

OUR GROWTH

OUR PROFICIENCY

LINE 1 : MACHINE CAPACITY

PRINTER-DEK ELCTRONIC 03i

Board size - 40x50 to 508x508mm

PICK AND PLACE MACHINE-YV100 XT

Placement speed - 36,000 CPH

Board size - 980x510mm

REFLOW OVEN- KONARK 710S

7 Zone

LINE 2 : MACHINE CAPACITY

PRINTER-DEK ELCTRONIC 03i

Board size - 40x50 to 508x508mm

PICK AND PLACE MACHINE-YAMAHA M10

Placement speed - 40,000.CPH

Board size - 980x510mm

REFLOW OVEN- HELLER 1809EXL

9 Zone

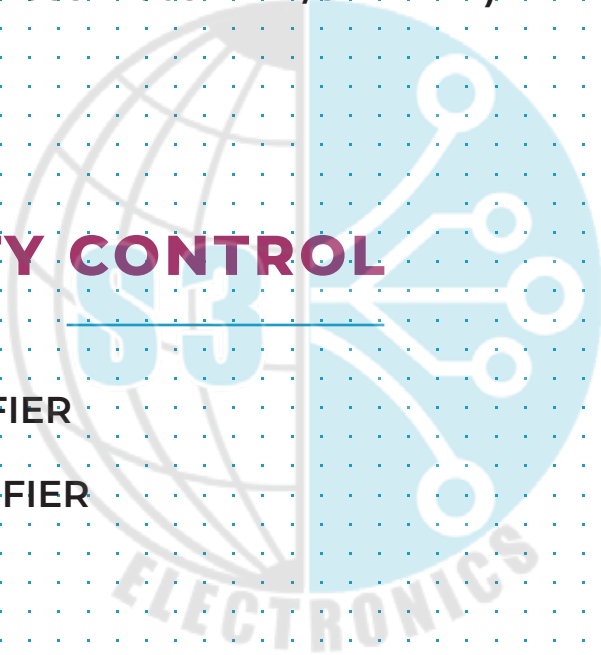

INSPECTION FACILITY

- ★ 2D AOI Inspection
- ★ Small PCBA (51 x 51 mm / 2" x 2") to heavy duty boards (up to 939 x 609 mm / 37" x 24")

QUALITY CONTROL

- ★ 1.2X MAGNIFIER
- ★ 2. 3X MAGNIFIER

NOTE : AT THE MOMENT AOI MACHINE IN TRANSIT.
AOI INSPECTION PROCESS TO BE IMPLEMENTED WITHIN 10 DAYS.

PRODUCT INTEGRATION

ENERGY METERS

KIA SIDE MIRROR

CAR USB CHARGER

CAR STEERING CONTROL

MEDICAL DEVICE

Thank
you!
